## Unpacking

Doorbell Chime  
Model: T8740

Power Connector  
(Pin type may vary in different regions)

## Getting Started

A eufy Security Doorbell is required for the installation and setting to the Chime. The Doorbell Chime is an exclusive accessory to the eufy Security Video Doorbell.

You can pair up to 4 Chimes to your eufy Doorbell to notify anyone inside of activity at the front door, from anywhere in your home.

## Installation and Settings

**Step 1.** Fix the Power Connector to the Doorbell Chime:

- A. Place the Power Connector over the Chime in the direction the arrows indicate.
- B. Align the raised slots of the Power Connector with the notch on the base of the Doorbell Chime.
- C. Rotate clockwise to lock the Power Connector in place.

**Step 2.** Plug the Doorbell Chime into an AC power supply at your desired location.

**Step 3.** In the EufySecurity App, go to **Doorbell Settings - Indoor Chime**.

Follow the onscreen instruction to add the Chime to your existing Video Doorbell.

**Step 4.** You can select the ringtone (up to 8 ringtones) and adjust the volume level (3 volume levels) by using the Music and Volume buttons located on the sides of the Doorbell Chime. Each Chime can play a different ringtone according to your setting.

## Replacing the Power Connector (If necessary)

You may need to replace the power connector given the region you are in. Follow the instructions provided below to replace the Power Connector.

**Step 1.** Press the Lock button and twist the Power Connector counterclockwise at the same time to remove it from the Doorbell Chime base.

**Step 2.** Install the new Power Connector onto the Doorbell Chime following the same installation procedure mentioned at the start of the guide.

# Safety

## FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two

conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital

device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If

this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4)

Consult the dealer or an experienced radio/TV technician for help.

## FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

The following importer is the responsible party

Company Name: POWER MOBILE LIFE, LLC

Address: 400 108th Ave NE Ste 400, Bellevue, WA 98004-5541

Telephone: 1-206-383-8247

This product complies with the radio interference requirements of the European Community.

## Declaration of Conformity

Hereby, Anker Innovations Limited declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. For the declaration of conformity, visit the Web site [www.eufylife.com](http://www.eufylife.com)

Do not use the Device in the environment at too high or too low temperature, never expose the Device under strong sunshine or too wet environment.

The suitable temperature for T8740 is 0°C-45°C.

RF exposure information: The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of d=20 cm between the device and the human body. To maintain compliance with RF exposure requirement, use product that maintain a 20cm distance between the device and human body.

CAUTION RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT TYPE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

433MHz Frequency Range:433.92MHZ;
