# Step 1 Install the Wi-Fi Module (T8709)

Connect the cable to the Type-C port on the back of the eufy Network Video Recorder (NVR).

Step 2 Pair with eufy Cameras

❶ Wait until the status indicator on the Wi-Fi module turns blue.
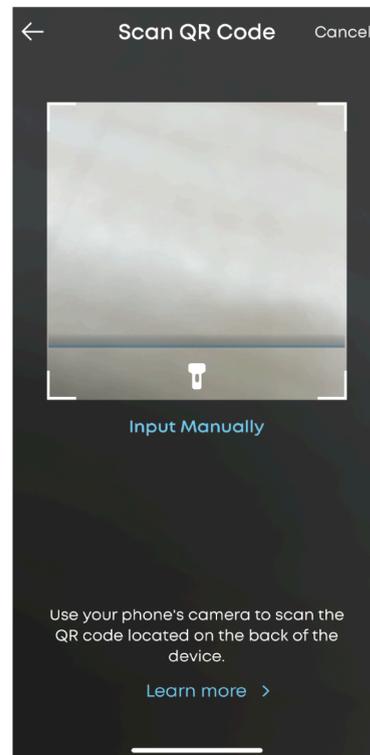

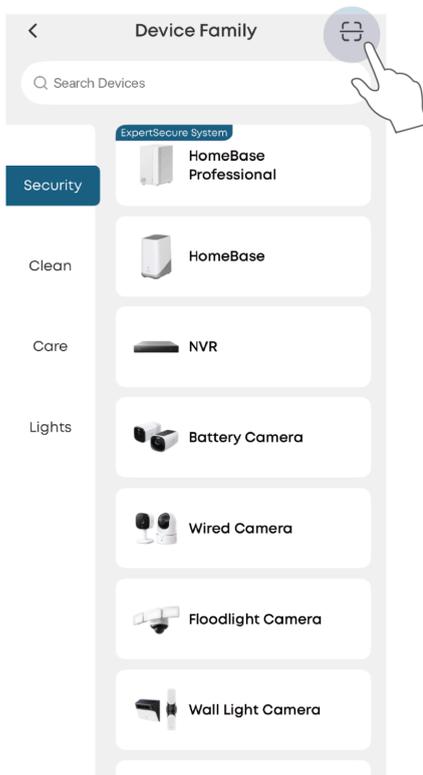

💡 It may take a few minutes for the Wi-Fi module to complete the update before pairing devices for the first time.

❷ Tap **Add Device** or the **+** icon in the eufy app.

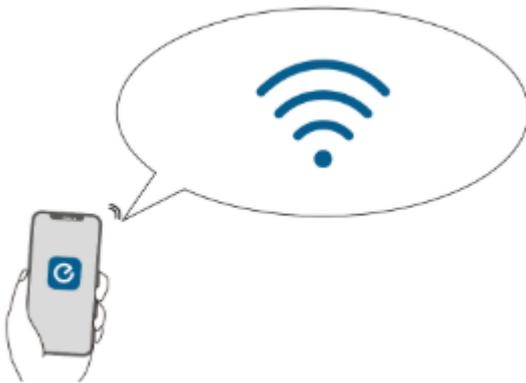

❸ Scan the QR code on the camera.

❹ Follow in-app instructions to pair the camera.

Connect to NVR

Success! The camera is connected to NVR.

Done

Step 3 Check the Signal

Check the signal in the app.

LED Indication

LED Indication	Status
Off	Powered Off / Sleep mode
Steady Purple	Powering On
Steady Blue	Powered on / Transferring data
Flashing Blue	Pairing with Cameras or Sensors
Alternately Flashing Red and Blue	OTA Update
Slowly Flashing Red	Wi-Fi module error
Steady Red	NVR disconnected
