## Verktøy du trenger

Phillips-skrutrekker

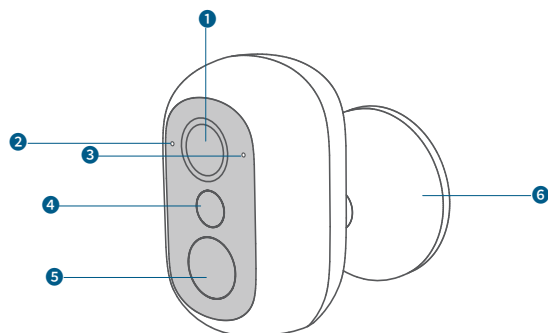

Kraftbor (6 mm)

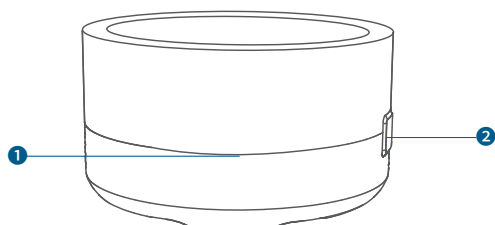

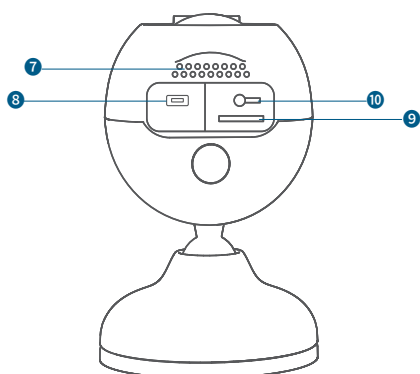

Hammer

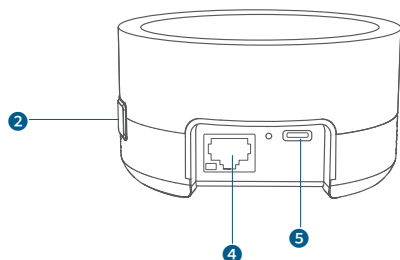

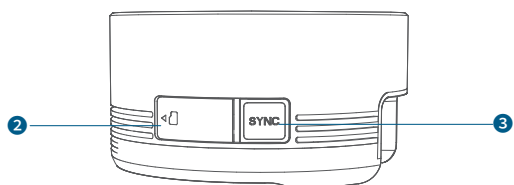

# Et overblikk

- ❶ Kameralinse
- ❷ LED-indikator
- ❸ Mikrofon
- ❹ Spotlight
- ❺ PIR-sensor
- ❻ Magnetisk monteringsbrakett
- ❼ Høyttaler
- ❽ USB-C-port
- ❾ microSD-kortspor
- ❿ Synkroniseringsknapp

- ❶ LED-indikator
- ❷ microSD-kortspor
- ❸ SYNC-knapp
- ❹ Ethernet-port
- ❺ USB-C-port

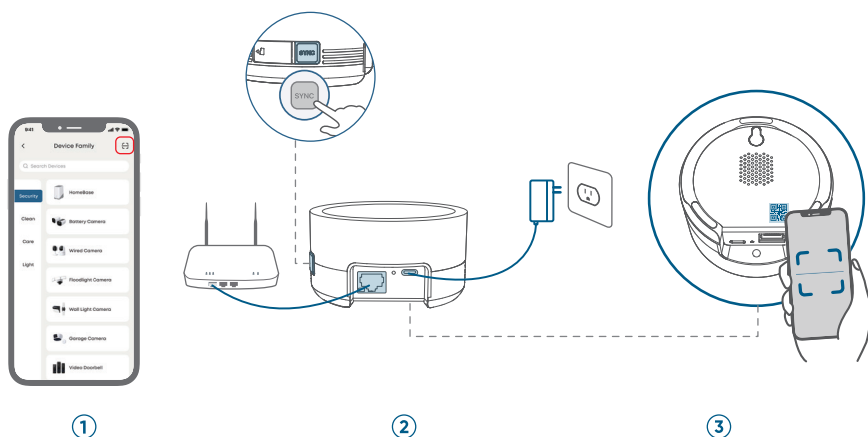

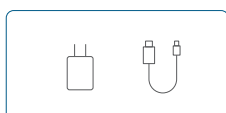

# Før Montering

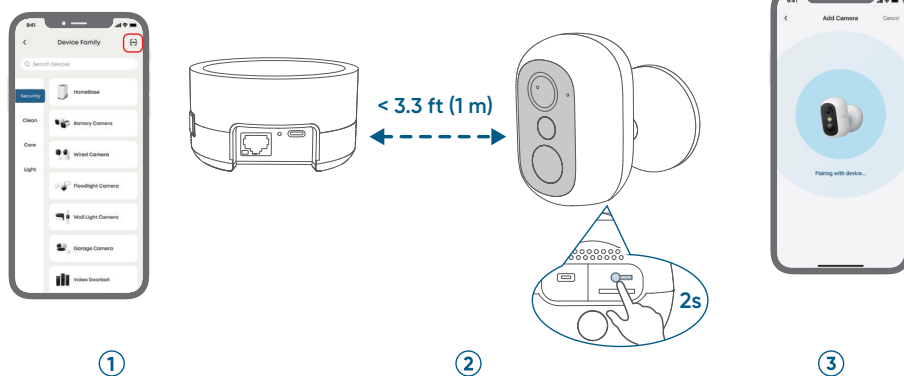

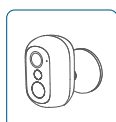

## 1. Last ned eufy-appen

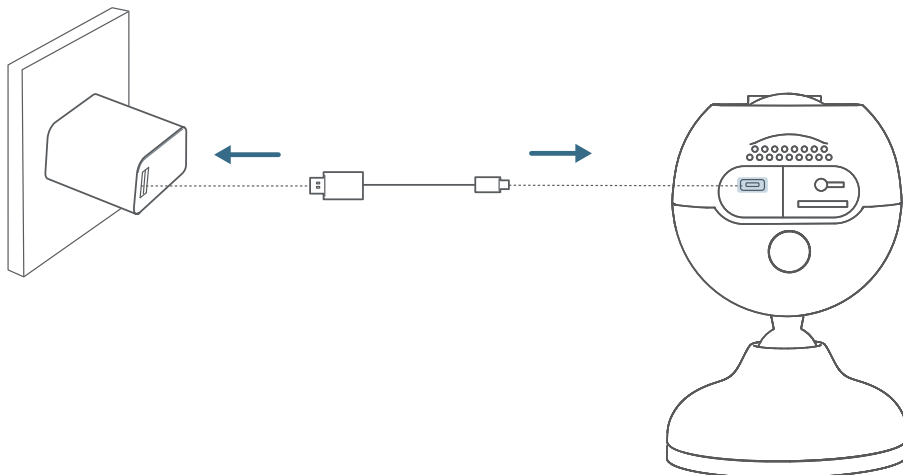

## 2. Legg til HomeBase Mini

## 3. Legg til kameraet

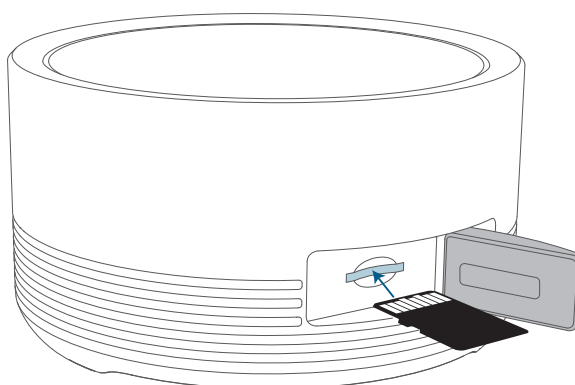

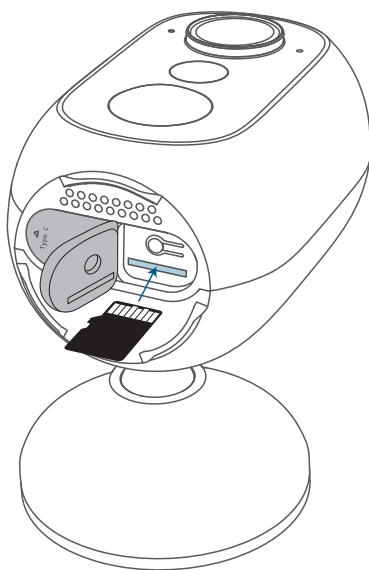

#### 4.Lad kameraet helt opp

Du kan sjekke batterinivået i appen.

#### 5.Sett inn og fjern microSD-kortet (valgfritt)

- ① Sett inn microSD-kortet med pinnene vendt opp. Trykk kortet inn i sporet til det klikker på plass.
- ② For å fjerne microSD-kortet, trykk det innover til det spretter ut, og trekk det deretter ut fra sporet.

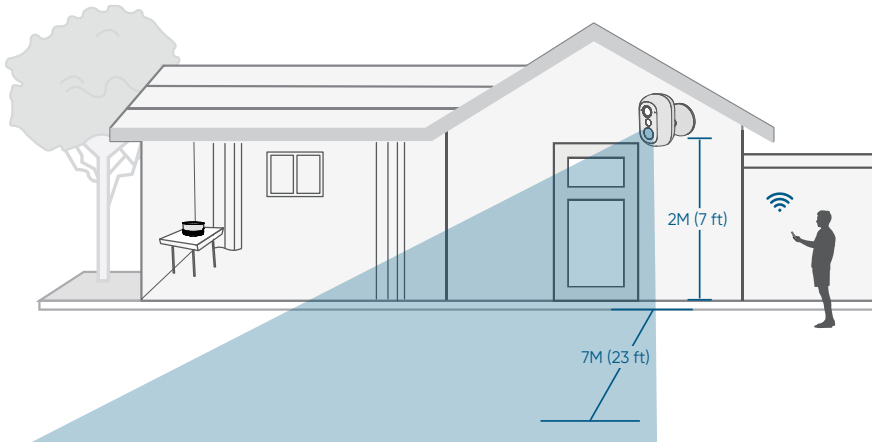

Ikke sett inn eller fjern microSD-kortet når HomeBase Mini er slått på.

# Før Montering

## 1. Velg et sted

Anbefalt plassering:

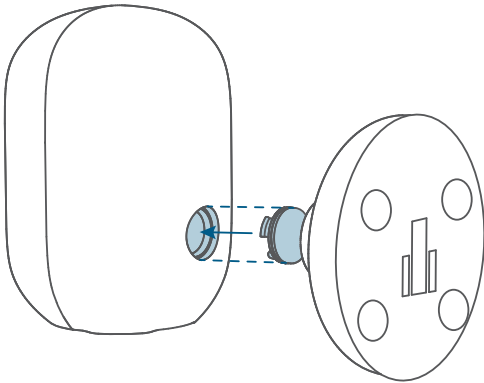

- Høyde på mindre enn 2 m
- 7 m synsfelt
- Sterkt Wi-Fi-signal

## 2. Installer monteringsbraketten

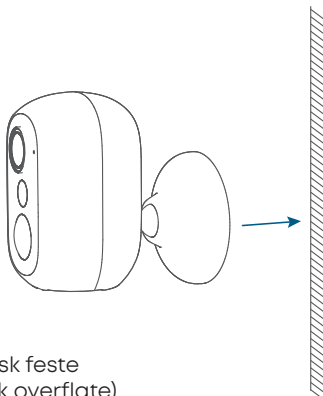

Før du installerer monteringsbraketten, juster kuleleddet til den illustrerte vinkelen.

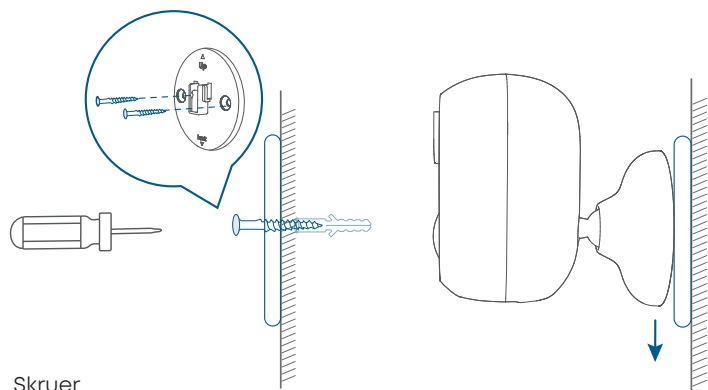

## 3. Velg et monteringsalternativ

Plasser alltid kameraet oppreist for å forhindre vanninntrenging.

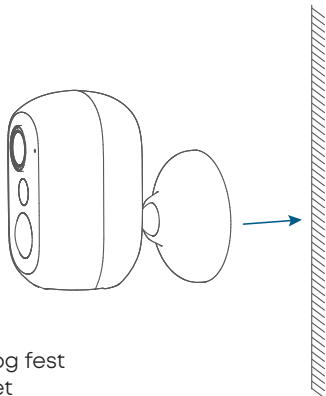

Magnetisk feste  
(metallisk overflate)

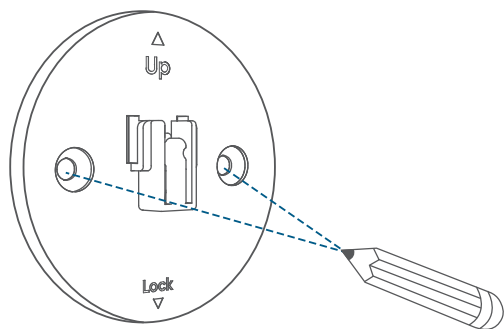

Skruer

### 3.1 Installer kameraet med magnetisk feste (metallisk overflate)

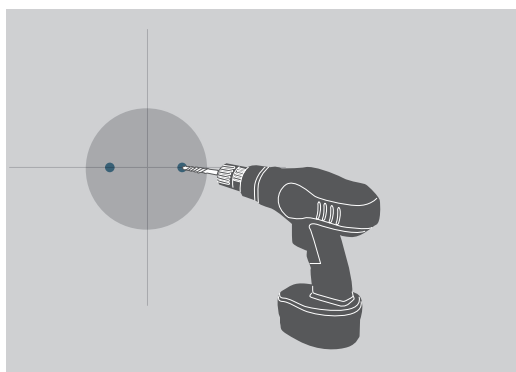

Plasser og fest  
kameraet

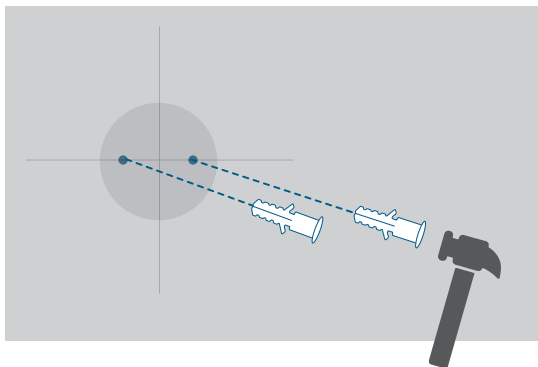

### 3.2 Installer kameraet med skruer

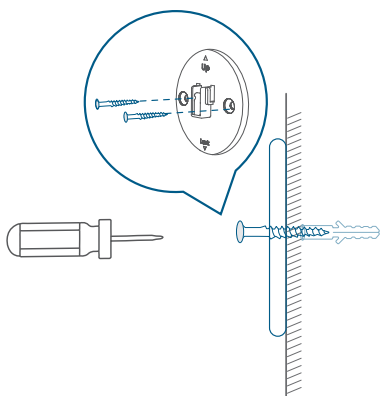

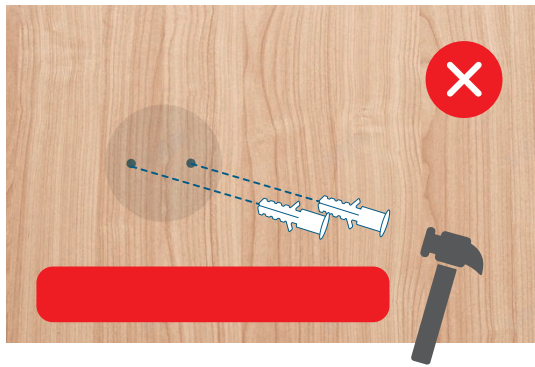

① Posisjon

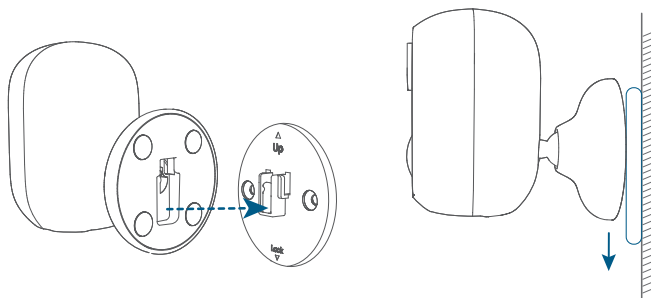

② Bor hull

③ Sett inn ankere (Hopp over for trevegger)

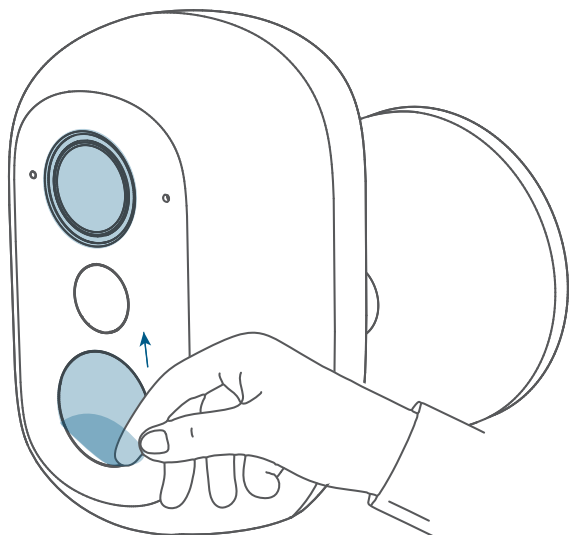

④ Installer monteringsbasen

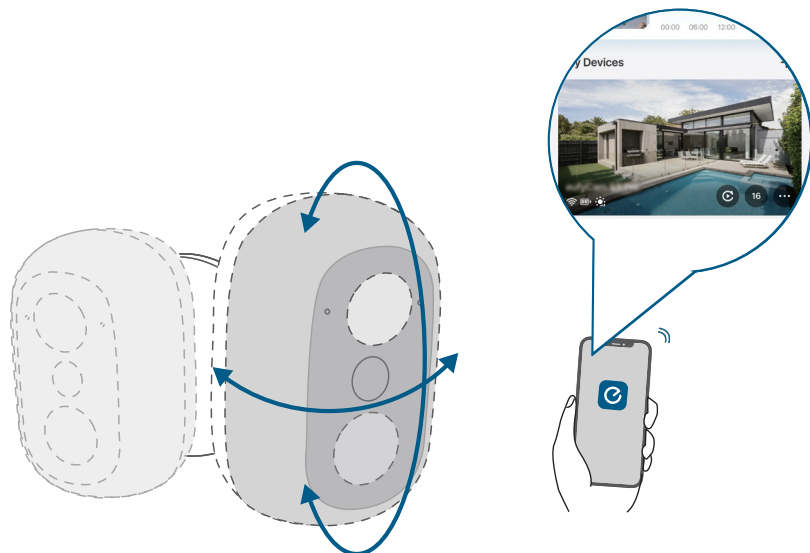

⑤ Skyv kameraet på monteringsbasen

#### 4. Juster kameraets synsfelt

##### ① Fjern beskyttelsesfilm

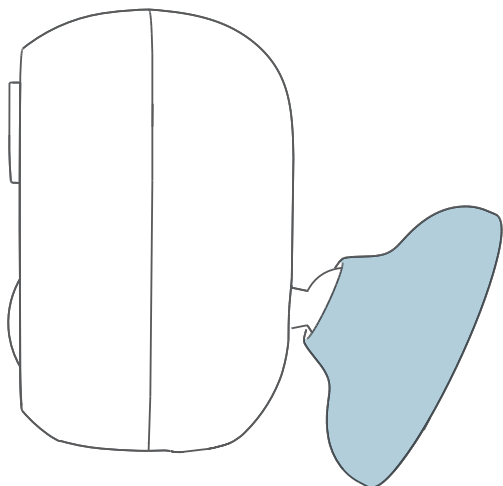

##### ② Roter for å få den optimale vinkelen

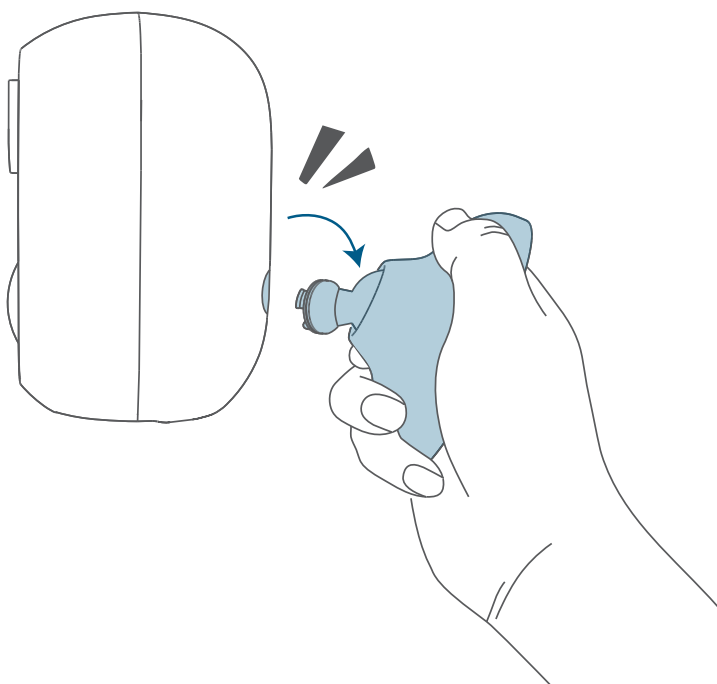

## Frakobling av kameraet (valgfritt)

1. Juster braketten til den illustrerte vinkelen.

2. Hold braketten fast og bøy den utover og nedover for å løsne kameraet og braketten.

# Gratulerer!

Nå er du klar til å bruke din eufyCam C35!  
Utforsk mer i eufy-appen.

## Merknad

- Når den er satt inn, vil microSD-kortet fungere som det primære lagringsmediet, og prioritere lagring av systemgenererte data (som logger og konfigurasjonsfiler) og videoopptak fra kameraene.
- Koble HomeBase Mini til strøm med den medfølgende 5V/2A strømadapteren. Enheten vil ikke fungere riktig hvis den drives av en 5V/1A adapter.
